Objective

A highly skilled MERN stack developer with one year of freelance experience building and deploying web applications. Proficient in MongoDB, Express.js, React.js, and Node.js. Demonstrated ability to work independently and collaboratively in a fast-paced environment to meet project deadlines. I am seeking to leverage my technical expertise to contribute to the success of your organization.

Skills: JavaScript, HTML5, CSS3, MongoDB, Node.js, Express.js, Git, GitHub, AWS-S3, REST API, Socket.IO, CRON, Bootstrap

Experience

Freelance MERN Stack Developer

Orlando, Fl

01/2022 - present

- Developed and deployed multiple web applications using the MERN stack, resulting in a high level of customer satisfaction
- Collaborated with clients to help understand project requirements and provided technical solutions
- Worked with Git for version control and Heroku for deployment
- Utilized RESTful APIs to integrate third-party services with web-applications
- Demonstrated strong problem-solving skills and the ability to troubleshoot issues quickly and effectively

Suave House Hair Studio | Deployed Project: https://www.suavehousestudio.com/

- Built an appointment booking solution with online payments for this barbershop using SendGrid Api for emails, Stripe Api for client payments, AWS-S3 for employee images, and CRON to update employee schedules and delete old appointments.

Bulk SMS App | GitHub Repo: https://github.com/laurisseau/barber-txtMessenger

- Built a bulk SMS app using Twilio API to quickly and easily reach many people with essential updates, promotions, or other messages.

Projects

StartUp Weekend | GitHub Repo: https://github.com/laurisseau/gpt-ta
Deployed Project: https://teachmeai.herokuapp.com/

- Collaborated with a team to create a web-based chatbot that uses the openAI API to provide personalized tutoring services
- Demonstrated strong problem-solving skills and the ability to work collaboratively in a fast-paced environment

E-commerce | GitHub Repo: https://github.com/laurisseau/barber-ecommerce

Deployed Project: https://ecommerce-mern.herokuapp.com/
- Created a user-friendly frontend using ReactJs, allowing users to browse products, add them to their cart, and checkout securely
- Implemented payment gateway integration using stripe API to provide a seamless payment experience for users
- Demonstrate the ability to work independently to deliver functional projects in a timely manner
